Residential Real Estate Market Summary for Benton and Washington Counties

This report is the thirty-sixth edition of the Skyline Report for Benton and Washington Counties—Residential Real Estate Market Analysis. Researchers at the Center for Business and Economic Research in the Sam M. Walton College of Business at the University of Arkansas produce the Skyline Report to provide timely statistical analysis of the Northwest Arkansas residential real estate market. As the population of Northwest Arkansas increases, it is imperative that housing markets work efficiently in order to meet the demand of new and existing residents. The Skyline Report includes the information that is necessary to help market participants make good decisions.

Highlights from the Second Half of 2014

- There were 1,048 building permits issued in Benton and Washington counties from July 1, to December 31, 2014. This number is 4.2 percent lower than the 1,094 building permits issued during the same period in 2013. Benton County accounted for 628 of the residential building permits, while Washington County accounted for 420.
- 27,601 lots were in the 383 active subdivisions identified by Skyline Report researchers in the second half of 2014.
- In 67 out of the 383 active subdivisions, no new construction or progress in existing construction has occurred during the last year.
- During the second half of 2014, 1,048 new houses in active subdivisions became occupied, down 2.0 percent from 1,069 in the first half of 2014.
- Using the absorption rate from the past twelve months implies that there was a 56.2 month supply of remaining lots in active subdivisions in Northwest Arkansas in the second half of 2014.
- An additional 4,033 residential lots have received preliminary approval in Northwest Arkansas. Adding these proposed lots to those in active subdivisions yields 79.1 months of inventory in the second half of 2014.
- According to the Assessors' databases, 67.1 percent of houses in Benton County and 63.3 percent of houses in Washington County were owner-occupied.
- From July 1, 2014 to December 31, 2014 there were 3,691 houses sold in Benton and Washington counties. This is an increase of 8.3 percent from the 3,407 sold in the same time period in the previous year.
- The Bentonville School District accounted for 31.7 percent of the houses sold in the region, while the Rogers School District accounted for 18.3 percent.
- There were 2,951 houses listed for sale in the MLS database as of December 31, 2014 at an average list price of \$273,676.

Report Structure

This report contains the results of an extensive data gathering and analysis effort. The single family residential real estate market encompasses two kinds of houses-new construction and existing structures. The Skyline Report addresses both aspects of the market. Four primary sources of data were examined to obtain a more complete picture of the total single family housing market. First, residential building permit data were collected from each of the cities in Benton and Washington County. Each city has its own standard for reporting these data, leading Skyline Report researchers to manually standardize the information. Building permit data provide the first indication of where to find "active" subdivisions in Northwest Arkansas. For the second primary data source, plats were obtained from the Benton and Washington County Clerks' offices for all subdivisions that had been approved during the current period. Skyline Report staff members then physically examined each subdivision and classified each lot as empty, a start, under construction, complete, but unoccupied, or occupied. Once construction occurred in a subdivision with all empty lots, this subdivision was defined as active and was included in the Skyline Report as such. During the recent economic downturn, however, the activity in subdivisions declined. To describe the current situation more precisely, Center researchers identified active subdivisions where no construction or no absorption occurred during the last year.

Next, Skyline Report researchers collected information from city planning divisions about subdivisions that have received preliminary or final approval, but had not started construction, and calculated the number of residential lots that were in the pipeline. Subdivisions that received preliminary approval before the second half of 2012 were not included in the coming lot data unless the appropriate city planning staff considered those older subdivisions still ongoing concerns. Thus, only subdivisions with final approval, preliminary approval

during the last two years, or preliminary approval prior to the first half of 2013, but confirmed as ongoing by city planning staff, were included in the coming lots pipeline. Finally, Skyline Report analysts collected data on sales of houses, measuring the absolute number, value, and other characteristics of the inventory. The sales data were also provided by school district and subdivision. In addition, newly constructed houses were identified among the sold houses by Center researchers constructed from 2011 to 2014. The number of houses listed for sale in the MLS database as of December 31, 2014 and their average list prices were also reported.

These same data elements are collected on a semiannual basis, so that trends can be identified and examined. Additionally, where available, absorption rates were calculated for active subdivisions and these numbers are extrapolated to estimate remaining months of inventory. Results are presented on a regional, county, and city-by-city basis. Because this study is the thirty-sixth edition of the Skyline Report, time trend data are available for the different series which are collected. Skyline Report analysts are able to separate the seasonality and trend effects, and discuss the direction of the Northwest Arkansas market effectively. Additionally, Center researchers acquired data from Benton and Washington Assessors to estimate the percentage of owner-occupied houses in the region. Seven years of data are provided in this report to evaluate a trend in both counties.

In order to provide a context for the residential real estate market analysis, an economic overview is provided. This overview contains national housing market statistics, a discussion of interest rates and mortgage rates, and macroeconomic indicators like GDP growth and changes in input prices. Northwest Arkansas regional economic data are also discussed, as the status of employment and wage growth are likely to impact the local residential real estate markets.

After the economic overview, a summary of the regional findings from the analysis of the building permit, subdivision, and existing house sales data is presented. Residential real estate activity during the second half of 2014 in Benton County are then discussed, followed by statistical summaries for each of the cities within Benton County. Finally, descriptions of the Washington County second half of 2014 results are offered. An additional section on activity in West Washington County is included. West Washington County is defined as Farmington, Greenland, Lincoln, Prairie Grove, and West Fork.

Economic Overview

It is helpful to look at some key macroeconomic statistics in order to get a sense of the Northwest Arkansas residential real estate market. The following discussion highlights some the statistics that indicate the direction of the macro economy.

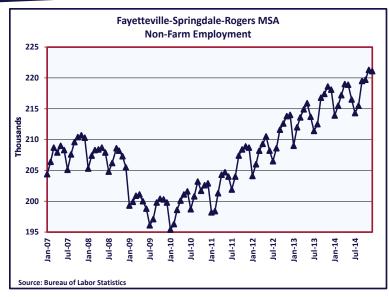

Gross Domestic Product

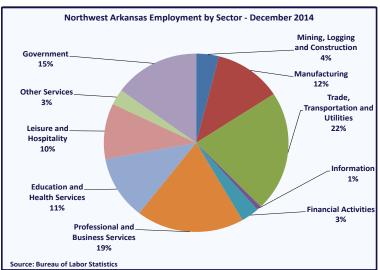

In the fourth quarter of 2014, real GDP rose by 2.6 percent according to estimates released by the U.S. Department of Commerce's Bureau of Economic Analysis (BEA). Real GDP increased by 5.0 percent in the third quarter of 2014 and by 4.6 percent in the second quarter of 2014. The growth in economic activity was driven by personal consumption expenditures, state and local government spending, and residential fixed investment.

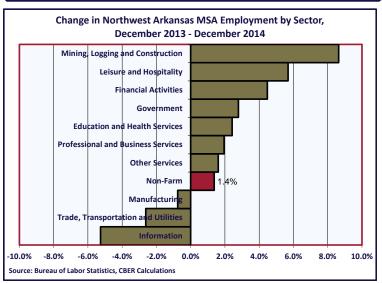

Employment

The Northwest Arkansas employment situation is extremely important to the health of the real estate market. The most recent data show that employment in the Northwest Arkansas region was at 221,100 in December 2014, up 1.4 percent from December 2013. According to the U.S. Bureau of Labor Statistics (BLS), the unemployment rate in Northwest Arkansas was at 4.1 percent in December 2014. This is up from the October and November 2014 rate of 3.9 percent. The unemployment rate has remained under 5 percent since July of 2014. The unemployment rate in Northwest Arkansas continues to be lower than both the state (5.6 percent) and national (5.4) unadjusted rates.

With the purpose of exploring more closely the composition of job growth in Northwest Arkansas, two additional figures are provided. The first shows the December 2014 Fayetteville-Springdale-Rogers MSA employment breakdown by sector. As the pie chart shows, trade, transportation, and utilities had the largest share of employment (22 percent) in Northwest Arkansas followed by professional and business services (19

Economic Overview

percent), government (15 percent), manufacturing (12 percent), education and health services (11 percent), and leisure and hospitality (10 percent). The other figure (on the previous page) shows the annual percentage change in the metro area's employment by sector from December 2013 to December 2014. Total nonfarm employment increased by 1.4 percent during that time. Employment in mining, logging and construction, leisure and hospitality, financial activities, education and health services, government sectors, professional and business services, and other service grew more quickly than 1.4 percent, while trade, transportation, and utilities, manufacturing, and information sectors declined year-over-year.

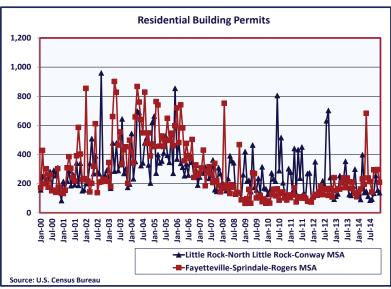

Interest Rates

The Federal Funds rate averaged 0.11 percent in January 2015. The ten year constant maturity Treasury bill had an interest rate of 1.9 percent in January 2015, down from 2.2 percent in December 2014. Near zero short-term rates continue to cause the positive spread between the ten year rate and the fed rate. The Federal Reserve Open Market Committee has indicated that the current easy money policy of keeping interest rates near zero is likely to change mid-year if the data support the decision. The quantitative easing program has ended. The accompanying figure shows the Federal Funds rate and the thirty year mortgage rate since January 2000.

Residential Construction

The U.S Census Bureau reports on new residential construction. Privately-owned housing units authorized by building permits were a seasonally adjusted annual rate (SAAR) of 1,032,000 in December 2014. This was 1.9 percent below the November 2014 rate of 1,052,000, and 1.0 percent above the December 2013 rate. The National Association of Realtors reports national existing-home sales. Existing-home sales increased 2.4

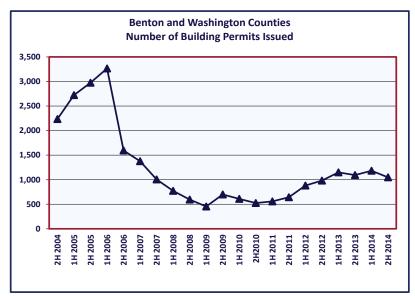

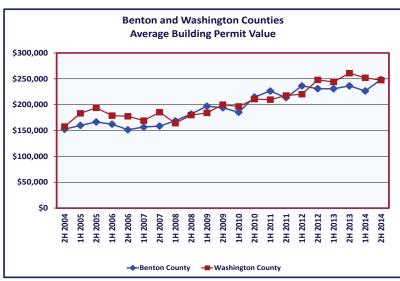

percent to a 5.04 million SAAR in December 2014 from a 4.92 million rate in November 2014, and was 3.5 percent higher than sales in December 2013.

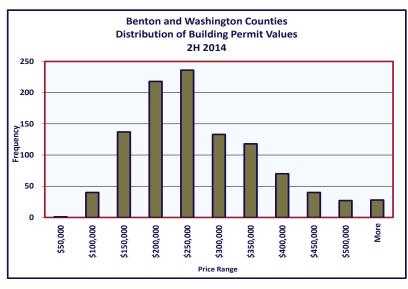

Regional Housing Market Summary

There were 1,048 building permits issued in Benton and Washington counties from July 1 to December 31, 2014. This number is 4.2 percent smaller than the 1,094 building permits issued during the same period in 2013. Benton County accounted for 628 of the residential building permits, while Washington County accounted for 420. The average value of all building permits in Northwest Arkansas from July 1 to December 31, 2014 was \$248,080, up 1.4 percent from the same time period in 2013 average value of \$244,575. The most active value range for building permits was the \$200,001 to \$250,000 range with 236, but there were 218 building permits issued in the \$150,001 to \$200,000 range as well. Building permit values do not include land prices, and thus, they do not represent the total price to a purchaser of a completed house.

27,556 lots were in the 383 active subdivisions identified by Skyline Report researchers in the second half of 2014. Of these lots, 8,991 were classified as empty, 135 were classified as starts, 650 were classified as being under construction, 321 were classified as complete, but unoccupied, and 17,459 were classified as occupied. In 67 out of the 383 active subdivisions, no new construction or progress in existing construction has occurred during the last year. During the second half of 2014, 1,024 new houses in active subdivisions became occupied, down 6.3 percent from the 1,093 in the first half of 2014. Using the absorption rate from the past twelve months implied that there was a 54.1 month supply of remaining lots in active subdivisions in Northwest Arkansas at the end of the second half of 2014. When the remaining second half inventory is examined on a county-by-county basis, Benton County had 47.7 months of remaining lot inventory and Washington County had 72.0 months of

remaining inventory in active subdivisions. Meanwhile, in 101 out of the 383 subdivisions in Northwest Arkansas, no absorption occurred during the last year.

For the cities of Bentonville, Cave Springs, Centerton, Decatur, Gentry, Lowell, Pea Ridge, Rogers, Siloam Springs, Elkins, Elm Springs, Farmington, Fayetteville, Goshen, Prairie Grove, Springdale, and West Fork, as well as for Benton and Washington counties (no city divisions), a list of subdivisions that have received either preliminary or final approval from their respective planning commissions, but have not yet begun construction on any lots, was compiled. For this period's Skyline Report, subdivisions with preliminary approval prior to the first half of 2013 were not included unless city planning staff confirmed they were still ongoing subdivisions. The subdivisions that were not confirmed by city planning staff have been reclassified as indefinitely postponed.

In the Bentonville pipeline, there were 585 lots in 9 subdivisions reported as either preliminary or finally approved. In Centerton, 7 subdivisions were planned with 526 lots. The Rogers planning commission had approved 8 subdivisions with 330 lots. There were 194 coming lots in 7 subdivisions in Siloam Springs. Cave Springs had 227 lots coming in 3 subdivisions. The cities of Bethel Heights, Highfill, Lowell, Pea Ridge, and unincorporated areas of Benton County had approved an additional 256 lots in 8 subdivisions. Fayetteville and Springdale had in their pipelines 921 lots in 17 subdivisions and 409 lots in 6 subdivisions, respectively, plus, Prairie Grove had 192 lots in 1 subdivision. The cities of Elkins, Elm Springs, Farmington, West Fork, and subdivisions in unincorporated areas of Washington County accounted for an additional 317 approved lots in 6 subdivisions. In total, there were 4,033

Benton and Washington Counties Number and Average Value of Residential Building Permits Second Half of 2014

Northwest Arkansas	1,048	1,094	\$248,080	\$244,575

lots approved within the two counties. If this lot inventory is added to the remaining lots in active subdivisions, then there are 79.1 months of inventory in Northwest Arkansas. However, this should be viewed as a worst case scenario as many of the projects with approval may be significantly delayed or changed before becoming active.

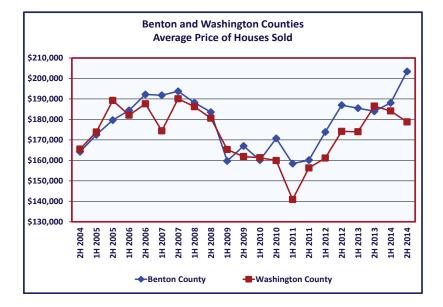

From July 1 to December 31, 2014 there were 3,691 houses sold in Benton and Washington counties. This is an increase of 8.3

percent from the same period in the previous year. There were 2,951 houses listed for sale in the MLS database as of December 31, 2014 at an average list price of \$273,676. In the second half of 2014 in Northwest Arkansas, the average sales price of houses, in absolute terms, increased in Benton County but not in Washington County, as compared to the first half of 2014. In Benton County, average sales prices increased by 8.2 percent during the second half of 2014 to \$203,419. The median house price remained the same at \$155,250

during the same time period. In Washington County, the average prices of houses sold decreased by 2.9 percent during the second half of 2014 to an average of \$178,774. The median house price in Washington County decreased by 1.9 percent the same period to \$151,000 in the second half of 2014. In per square foot terms, average Benton County prices increased 4.8 percent to \$88.61 and average Washington County prices increased 0.1 percent to \$89.30 from the first half of 2014 to the second half of 2014. Out of the 3,691 houses sold in the second half of 2014, 701 were new construction. These newly constructed houses had average sale prices that were 132.2 percent and 69.6 percent of the overall Benton and Washington county average prices, respectively.

Benton and Washington Counties Sold House Characteristics by School District Second Half of 2014

School District	Average Price	Average Price Per Square Foot	_	Number of Houses Sold	Percentage of Regional Sales
Bentonville	\$230,142	\$93.66	123	1,171	31.7%

Building Permits

From July 1 to December 31, 2014, there were 628 residential building permits issued in Benton County. The total was 15.8 percent lower than the first half of 2014 total of 746 residential building permits. The average value of the Benton County building permits was \$248,533 in the second half 2014, 9.7 percent higher than the average value of \$226,519 in the first half of 2014. About 44.6 percent of the second half building permits were valued between \$200,001 and \$299,999, with 40.6 percent valued higher than \$300,000 and 16.7 percent lower than \$199,999. In Benton County, the dominant building permit value points were between \$150,001 and \$299,999.

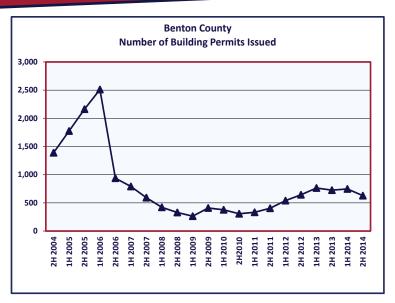

Bentonville accounted for 37.1 percent of the residential building permits in Benton County. Rogers and Centerton accounted for 20.4 and 21.0 percent of the Benton County residential building permits, respectively. The remaining 21.5 percent were from other small cities in the county.

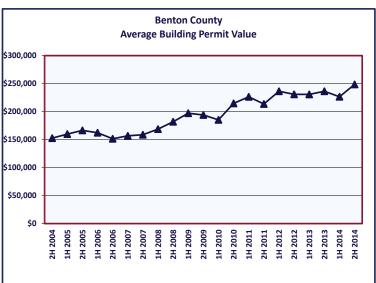

From the second half of 2013 to the second half of 2014, the number of issued building permits increased in Bentonville, Cave Springs, Centerton, Gravette, Little Flock, Lowell, Pea Ridge, and Rogers. However, the number of permits decreased in Bella Vista and Gentry, and remained the same in Bethel Heights, Decatur, and Siloam Springs.

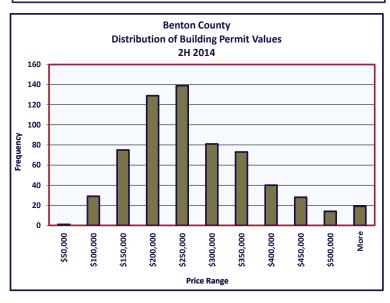

Subdivisions

There were 17,355 total lots in 217 active subdivisions in Benton County in the second half of 2014. Within the active subdivisions, 29.2 percent of the lots were empty, 0.4 percent were starts, 2.4 percent were under construction, 1.3 percent were complete but unoccupied houses, and 66.7 percent were occupied houses. In the second half of 2014, Bentonville had the most empty lots, starts, and occupied houses.

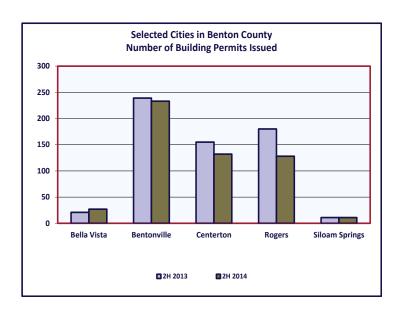

During the second half of 2014, the most active subdivisions in terms of houses under construction were Oak Tree in Centerton with 16, Cornerstone Ridge and Lonesome Pond in Bentonville and Silo Falls in Rogers, with 14. These top subdivisions for new construction were also among the most active in the first half of 2014. Meanwhile, no new construction or progress in existing construction occurred in the last year in 32 out of the 217 subdivisions in Benton County.

Benton County

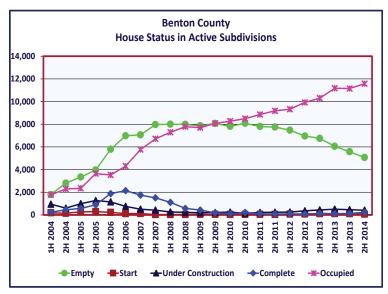

In the second half of 2014, 664 houses in Benton County became occupied. This was a decrease from the 681 in the first half of 2014. Extrapolating the annual absorption rate to the remaining lots in active subdivisions, Benton County had 51.6 months of lot inventory at the end of the second half of 2014. This is up from the 49.8 months of inventory at the end of the first half of 2014. Overall, in 51 out of the 217 active subdivisions in Benton County, no absorption occurred in the last year.

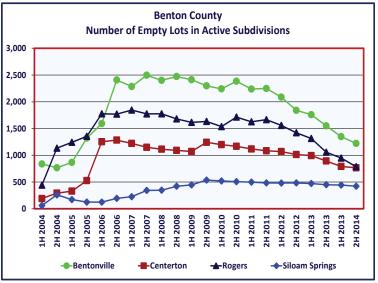

Information was also collected from each city about subdivisions that had received either preliminary or final approval, but where no construction had yet occurred. In the second half of 2014, there were 2,192 lots in 43 subdivisions in Benton County that had received approval. Bentonville accounted for 26.7 percent of the coming lots, Centerton accounted for 24.0 percent, Rogers accounted for 15.1 percent, and Siloam Springs accounted for 8.9 percent of the coming lots. Other small cities in Benton County accounted for the remaining 25.4 percent of coming lots.

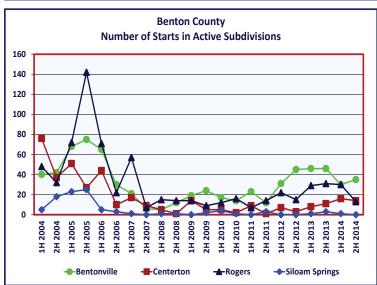

In addition, Center researchers obtained revised data from the Benton County Assessor's Office to estimate the percentage of owner-occupied houses in the county. The data with homestead information by city from 2008 to 2014 are provided in this report. The percentage of houses occupied by owners increased from 66.6 percent in 2008 to 67.1 percent in the second half of 2014

Sales of Existing Houses

By examining house sales in the second half of 2014, the following results were revealed. A total of 2,300 houses were sold from July 1, 2014 to December 31, 2014 in Benton County. This represents an increase of 18.0 percent from the previous half, and an increase of 8.0 percent from the same time period in 2013. About 27.7 percent of the houses were sold in Rogers, 24.0 percent in Bentonville, 20.8 percent in Bella Vista, and 27.5 percent in the rest of Benton County. There were 1,823 houses listed for sale in the MLS database as of December 31, 2014 in Benton County at an average list price of \$266,827. In the second half of 2014, the average price of all houses

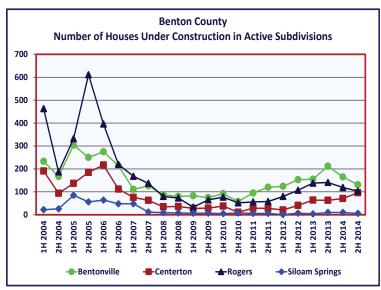

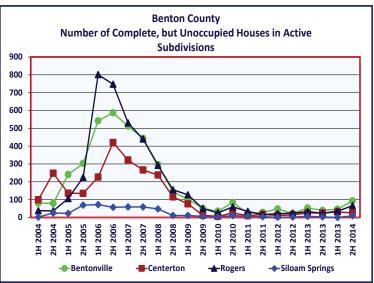

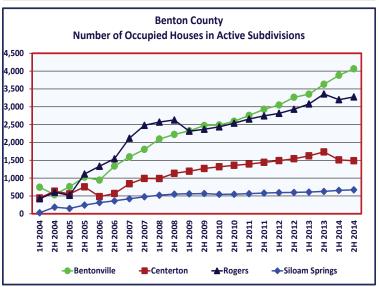

sold in Benton County was \$203,419, while the median price was \$151,000 and the average house price per square foot was \$88.61. For the second half of 2014, the average amount of time between the initial listing of a house and the sale date was 124 days. The average sales price increased by 7.5 percent compared to the first half of 2014, the price per square foot increased by 4.5 percent during the second half of 2014, and the duration on the market decreased by 9.3 percent during the second half of 2014. Out of the 2,300 houses sold in Benton County in the second half of 2014, 486 were new construction. These newly constructed houses had an average sold price of \$268,911 and took an average 139 days to sell from their initial listing dates.

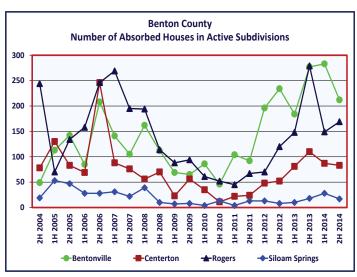

For the period of July 1 to December 31, 2014, on average, the largest houses in Benton County were sold in Bentonville. Overall, homes sold most rapidly in Bethel Heights, Cave Springs, and Lowell.

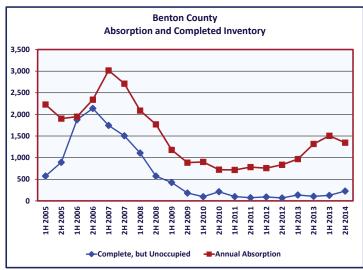

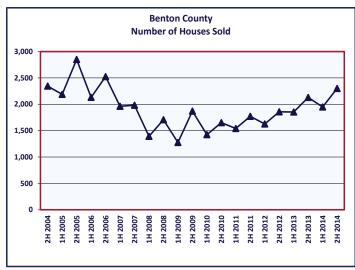

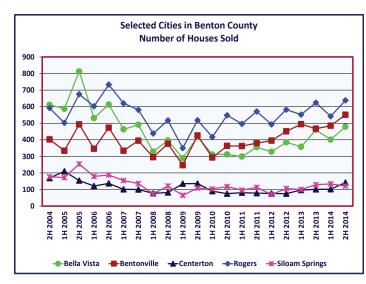

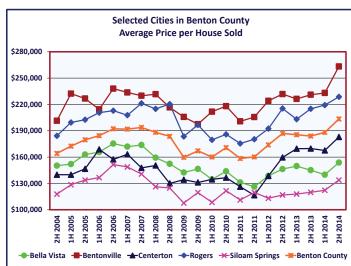

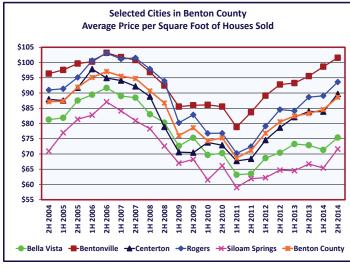

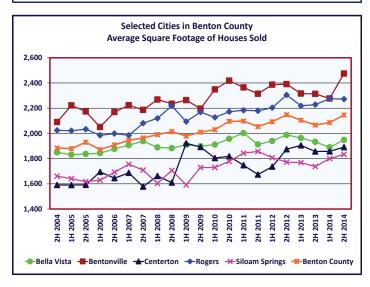

City	2008	2009	2010	2011	2012	2013	2014
Avoca	71.7%	76.0%	76.2%	75.7%	77.8%	75.8%	74.7%
Bella Vista	77.3%	78.3%	78.4%	78.9%	76.8%	76.6%	77.2%

- From July 1 to December 31, 2014 there were 27 residential building permits issued in Bella Vista. This represents a 28.6 percent increase from the second half of 2013. A majority of the building permits were in the \$200,001 to \$300,000 range.
- The average residential building permit value in Bella Vista increased by 1.9 percent from \$287,095 in the second half of 2013 to \$292,407 in the second half of 2014.
- Unlike other cities in Northwest Arkansas, Bella Vista has been completely platted and subdivided. There are 38,700 total lots in Bella Vista. There are about 13,000 residential structures in Bella Vista. Out of the remaining 25,700 lots approximately 5,000 to 7,000, an increased estimate from the previous 3,800 to 5,000 due to continued growth of the sewer system, could be considered ready for immediate construction, after acquisition from current owners.

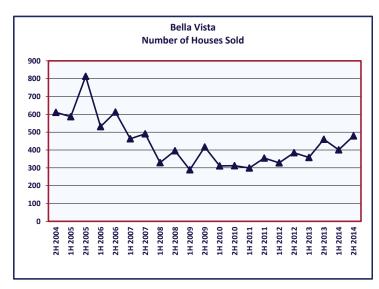

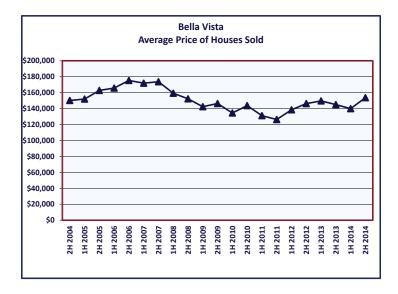

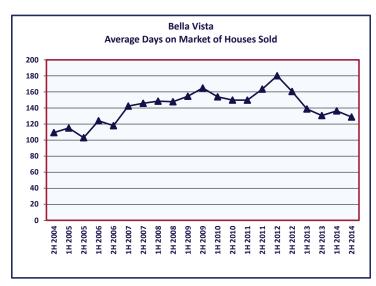

There were 479 houses sold in Bella Vista from July 1 to December 31, 2014, or 19.5 percent more than the 401 sold in the first half of 2014, and 4.1 percent more than in the second half of 2013.

By contrast, in 35 out of the 166 active subdivisions in Washington County, no new construction or progress in existing construction occurred in the last year.

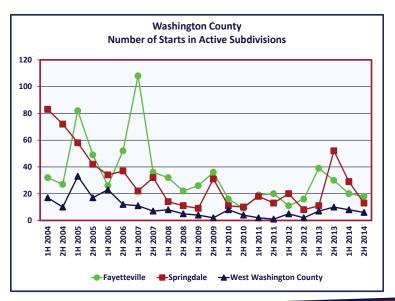

During the second half of 2014, 384 houses in active subdivisions became occupied in Washington County. Extrapolating the annual absorption rate to the remaining lots in active subdivisions, Washington County had 66.8 months of lot inventory at the end of the second half of 2014 down from 67.7 in the first half of 2014. The results reflect that in 50 out of the 166 active subdivisions in Washington County, no absorption has occurred in the past year.

Information was also collected from each city on subdivisions that received either preliminary or final approval, but where no construction had yet occurred. An additional 1,841 lots in 30 subdivisions had received either preliminary or final approval by December 31, 2014. Fayetteville accounted for 50.0 percent of the coming lots, Prairie Grove accounted for 10.4 percent, Springdale accounted for 22.2 percent, Farmington accounted for 8.4 percent, and the remaining 9.0 percent were in the small cities of Washington County.

Additionally, Center researchers analyzed data from the Washington County Assessor's Office to estimate the percentage of owner-occupied houses in the county. The data for the last six years as well as the data for the second half of 2014 are provided in this report by city. Overall, the percentage of houses occupied by owners increased from 63.7 percent in 2008 to 63.3 percent in the second half of 2014.

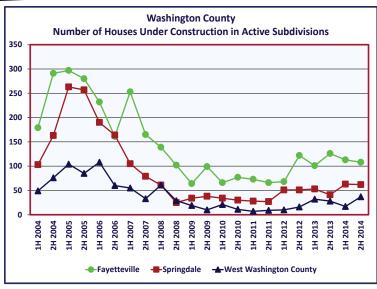

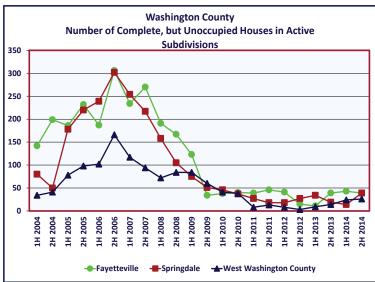

Sales of Existing Houses

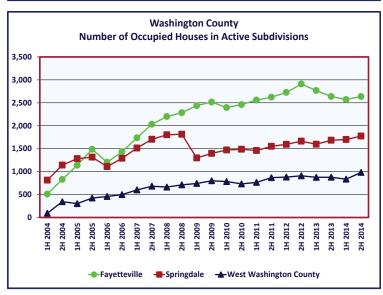

Examining the house sales in the second half of 2014 yields the following results; 1,391 houses were sold from July 1 to December 31, 2014 in Washington County. This represents an increase of 8.9 percent from the same period in 2013. About 34.9 percent of the houses were sold in Springdale, while 47.2 percent were sold in Fayetteville. As of December 31, 2014, the MLS database listed 1,128 houses for sale at an average list price of \$281,362. The average price of all houses sold in Washington County was \$178,774 and the average house price per square foot was \$89.30. For the second half of 2014, the average amount of time between the initial listing of a house and the sale date was 120 days, a decrease of 23 days from the previous half. Out of the 1,391 houses sold in the second half of 2014, 215 were new construction. These newly constructed houses had an average sales price of \$124,463 and took an average 84 days to sell from their initial listing dates.

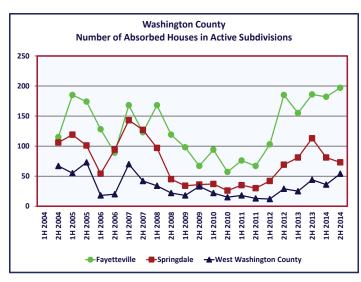

From July 1 to December 31, 2014, on average, the largest houses in Washington County were sold in Fayetteville, Springdale, and Greenland. The most expensive average home prices were in Fayetteville and Goshen. On average, homes sold fastest in Evansville and Goshen.

- From July 1 through December 31, 2014 there were 22 residential building permits issued in Goshen. This represents a 26.7 percent decrease from the second half of 2013.
- In the second half of 2014, a majority of building permits in Goshen were valued in the \$200,001 to \$300,000 range.
- The average residential building permit value in Goshen decreased by 6.4 percent from \$283,175 in the second half of 2013 to \$264,955 in the second half of 2014.

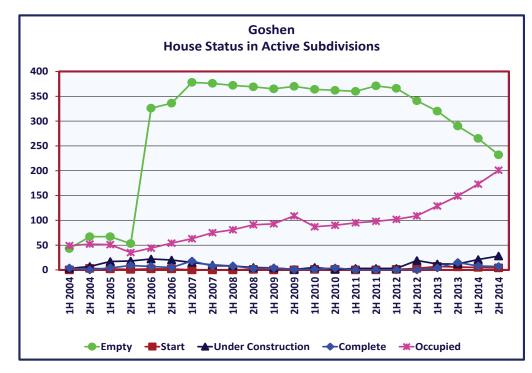

- There were 472 total lots in 11 active subdivisions in Goshen in the second half of 2014. About 42.6 percent of the lots were occupied, 1.5 percent were complete but unoccupied, 5.9 percent were under construction, 0.8 percent were starts, and 49.2 percent were vacant lots.
- The subdivision with the most houses under construction in Goshen in the second half of 2014 was Waterford Estates with 21.
- No new construction or progress in existing construction has occurred in the last year in 4 out of the 11 active subdivisions in Goshen.
- 28 new houses in Goshen became occupied in the second half of 2014. The annual absorption rate implies that there were 62.5 months of remaining inventory in active subdivisions, down from 81.5 months in the first half of 2014.

- In 6 out of the 11 active subdivisions in Goshen, no absorption occurred in the past year.
- No additional lots in any subdivisions had received either preliminary or final approval by December 31, 2014.
